

Camera Ready Paper Instruction

Please login to your author account at: <https://csoc.openpublish.eu> and submit your Camera Ready paper. Due to the conference tight deadlines, we strongly encourage you to login as soon as possible to your author's account to read the possible reviewers comments and feedback.

If you are using MS WORD:

- 1) Read your reviews – by clicking on Read Paper Review button.
- 2) Please submit your final manuscript by the February 28th (no extension will be provided). Please login to your author account, click on link Submitted papers. You may submit your final manuscript by using Upload Camera Ready Paper. (Button can be found in your paper Box, if you have multiple papers, you have to upload each of them individually).
- 3) Please submit a ZIP file/archive, which will contain:
 - a. MS Word Document
 - b. Figures source files – images (tiff, jpg, png, eps, etc.)
 - c. Final PDF version of your paper, corresponding to the source files.
 - d. **Consent to Publish, Consent to Publish is available prefilled in your user account (you can download it in your user dashboard, after login, in submitted paper section). Please submit scanned document – add your hand written signature.**
- 4) Please be sure to follow paper format templates, which can be found in Download Section <https://csoc.openpublish.eu/article/download> – or <https://www.springer.com/us/authors-editors/conference-proceedings/conference-proceedings-guidelines>.
- 5) Maximum paper length 12-14 pages (in correct paper format).
- 6) The final camera-ready paper strictly must comply with the Springer proceedings template. Editors will check implementation level of the reviewers' comments too. Failure to meet these conditions may result in rejection of your paper from the final publication process.

If you are using LaTeX (Tex):

- 1) Read your reviews – by clicking on Read Paper Review button.
- 2) Please submit your final manuscript by the February 28th (no extension will be provided). Please login to your author account, click on link Submitted papers. You may submit your final manuscript by using Upload Camera Ready Paper. (Button can be found in your paper Box, if you have multiple papers, you have to upload each of them individually).
- 3) Please submit a ZIP file/archive, which will contain:
 - a. LaTeX (Tex) files – incl. style files, special fonts, figures source files (tiff, jpeg, png, eps or pdf), special fonts and (optionally) bib files.
 - b. Final PDF version of your paper
 - c. **Consent to Publish, Consent to Publish is available prefilled in your user account (you can download it in your user dashboard, after login, in submitted paper section). Please submit scanned document – add your hand written signature.**
- 4) Please be sure to follow paper format templates, which can be found in Download Section <https://csoc.openpublish.eu/article/download> or <https://www.springer.com/us/authors-editors/conference-proceedings/conference-proceedings-guidelines>.
- 5) Maximum paper length 12-14 pages (in correct paper

format).

- 6) The final camera-ready paper strictly must comply with the Springer proceedings template. Editors will check implementation level of the reviewers' comments too.

Failure to meet these conditions may result in rejection of your paper from the final publication process.

Payment

- 1) For each paper that was accepted for the conference, please submit payment by clicking the Process Checkout - Conference Registration Fee button.
- 2) After clicking the button, you can see you personalized payment instruction page. Registration fees are per paper, not per author. If you have more than one paper, then you would have to submit separate registration payments for each of your papers.
- 3) You can choose payment by wire transfer or by credit card.
- 4) Final invoice will be uploaded to the user dashboard, when your payment will be registered by CSOC Organizing Committee.

Helpline:

Asks for further assistance, questions or queries please submit to csoc@openpublish.eu, Mr. Radek Silhavy, Ph.D.
